Where AI intelligence is always human

AI LITERACY WORKSHOP · ART. 4 EU AI ACT

AI doesn’t replace your team. It extends it.

One day. Your team. Your tools. Properly documented.

Swipe to see what your team gets →

WHY NOW

Every company that uses AI must act on AI literacy

Since 2 February 2025, Article 4 of the EU AI Act asks companies that use AI to take measures for the AI literacy of their staff – fitted to role, prior knowledge and the tools in use.

No certificate is required. What counts is real competence in the team and a record of what you did.

THE DAY

Five modules, one working day

1 **How AI works**
What a language model does – and why fluent is not the same as correct.

2 **Safe use at work**
Which data may go into AI tools, and four checks before using a result.

3 **The EU AI Act**
Risk levels, key dates and your company’s role.

4 **Practice with your tools**
Better requests and real tasks from your team’s week.

5 **Human responsibility**
Which decisions stay with people – and your team’s own AI rules.

HANDS-ON

More than half of the day is practice

01 **Spot the error**
Find invented facts and wrong numbers in AI answers.

02 **Red, amber or green?**
Sort real situations from your company with the data traffic light.

03 **Your own use case**
Use AI on a real task, check it, measure the time saved.

04 **Your team’s AI rules**
Agree on one page of rules everyone can follow.

TAILORED

Built around your industry, not a generic course

→ **Your industry**
Examples and exercises from your field, agreed in a preparatory call.

→ **Your tools**
We practise with the AI tools your team actually uses.

→ **Your roles**
Management, business units or IT – each gets what it needs.

→ **Your language**
In German, English or Spanish.

WHAT YOU RECEIVE

Competence – and the paperwork

1 **Certificates of attendance**
For every participant.

2 **Art. 4 documentation**
A record of the measure for your compliance files.

3 **Your team's AI rules**
The guideline agreed in the workshop, on one page.

4 **Materials**
Slides and handout for everyone.

OUR VIEW

AI is not here to replace people. It extends what a team can do – once people know how to use it safely.

AI produces options. People decide. That is the human layer we teach.

FORMAT

Simple to book

6h **One working day**
Including breaks; role modules on request.

◎ **Online or on-site**
On-site in Vienna; other locations by agreement.

3 **Three languages**
German, English, Spanish.
